Re: **USPS to begin piloting a proof of concept (POC) called the Marketing Mail
Optimized Delivery (MMOD)**

Dear Brothers and Sisters:

Please find enclosed a copy of the above-reference USPS to begin piloting a proof of concept (POC) called the Marketing Mail Optimized Delivery (MMOD).

According to the Postal Service, the test will focus on specific conditions where a delivery point does not receive First Class Mail for a given day. The Marketing Mail for that delivery point will be handled and processed by deferring delivery for a maximum of one (1) day.

The MMOD will begin testing at two (2) locations. The Austin P&DC TX POC will be from September 21 through October 16 and involve the following zip codes: 78703 and 78751. The Boston P&DC MA POC will be from September 28 through October 23 and involve the following zip codes: 02128, 02129, 02152, 02143, 02144, 02145, 02149, and 02150.

Specific steps have been implemented to ensure election mail is not affected during the duration of this POC.

Please disseminate this information as you deem appropriate. Should you have any questions contact the Contract Administration Department.

Dear Paul:

As a matter of general interest, the Postal Service will begin piloting a proof of concept (POC) called the Marketing Mail Optimized Delivery (MMOD). The test will focus on specific conditions where a delivery point does not receive First Class Mail for a given day. The Marketing Mail for that delivery point will be handled and processed by deferring delivery for a maximum of one (1) day.

The MMOD POC will begin testing at two (2) locations. The Austin P&DC TX POC will be from September 21 – October 16 and involve the following zip codes: 78703 and 78751. The Boston P&DC MA POC will be from September 28 – October 23 and involve the following zip codes: 02128, 02129, 02152, 02143, 02144, 02145, 02149, and 02150.

Specific steps have been implemented to ensure election mail is not affected during the duration of this POC.

Sincerely,
