Re: **USPS delivers Mandatory Stand-Up Talk re: COVID-19 vaccine eligibility expanded to everyone over 16.**

Dear Sisters and Brothers:

Please find enclosed a copy of the above-referenced document from the Postal Service regarding the latest Mandatory Stand-Up Talk re: COVID-19 vaccine eligibility expanded to everyone over 16.

According to the Postal Service, anyone 16 years of age and older is now eligible for COVID-19 vaccination. The Postal Service encourages all employees who wish to get vaccinated to do so. According to the Centers for Disease Control and Prevention (CDC), widespread vaccination is a critical tool to help stop the spread of the pandemic.

Effective immediately, every state in the U.S. has opened enrollment to all citizens over the age of 16. To assist people who are interested in receiving a COVID-19 vaccine, the CDC has adopted a new tool.

VaccineFinder is a free service that allows users to search for locations that offer vaccinations and have appointments available. The CDC works with partners such as clinics, pharmacies, and health departments to provide accurate and up-to-date information about vaccination services.

The data in VaccineFinder is updated daily and the service is available online at vaccinefinder.org.

Please disseminate this information, as you deem appropriate and should you have any questions, or comments and/or suggestions regarding the above, please contact this office or forward your responses to the Contract Administration Department.

COVID-19 vaccine eligibility expanded to everyone over 16

Anyone 16 years of age and older is now eligible for COVID-19 vaccination. The Postal Service encourages all employees who wish to get vaccinated to do so. According to the Centers for Disease Control and Prevention (CDC), widespread vaccination is a critical tool to help stop the spread of the pandemic.

Effective immediately, every state in the U.S. has opened enrollment to all citizens over the age of 16. To assist people who are interested in receiving a COVID-19 vaccine, the CDC has adopted a new tool.

VaccineFinder is a free service that allows users to search for locations that offer vaccinations and have appointments available. The CDC works with partners such as clinics, pharmacies and health departments to provide accurate and up-to-date information about vaccination services.

The data in VaccineFinder is updated daily and the service is available online at vaccinefinder.org.

Thank you for listening and stay safe.
